

THE BASSANO NEWS

VOL. II

C. P. R. HAD ARRANGED FOR GRAVITY SYSTEM

But will be willing to buy water from town at usual rates. Railway was going to spend \$40,000 on system.

That the C. P. R. had appropriated \$10,000 for the construction of a gravity system from the Bow river to their station at Bassano, and that the work and locomotives, and for this was generally, was the effect of a message received by Mayor S. Whiting this week from General Superintendent A. Price, of Calgary, in reply to a request as to whether the C. P. R. were planning to do in the vicinity of the town in the installation of a water works system.

The letter adds however, that if the town is willing to pay the cost of the system, the C. P. R. would be willing to supply water from the Bow river this year if the C. P. R. will agree to purchase 200,000 gallons of water per day from the town at the usual rates.

As this would mean a constant revenue of about \$180 per day from the C. P. R. it would be a considerable consideration when it comes before the Council. On the other hand, the C. P. R. were prepared to supply the town with water from their system. It would be an expense to the town to have to pay the cost of any system and without the chance of even breaking even on the venture.

The system proposed by the C. P. R. and which is certain therefore to be the most feasible is to take the water from the Bow river at a point about 10 miles from the town, and to divert the river back from the water up and into the gravity pipe, which has a decided drop between the river and the town. With the pump it would be possible at all times to boost the pressure, and with its installation, it should reduce the insurance rate in

Bassano far lower than exists in neighboring and unprotected towns.

To supply the whole town, as well as the west side of the street, the Canadian Pacific would have to take water from the Bow river at Bassano. It would be necessary to spend a little more on the undertaking than was appropriated by the C. P. R.

A safe hazard is that a large pipe would involve an extra expenditure of approximately \$5,000 per mile, so that the total cost of installation would be about \$100,000.

Surveyors under the direction of Mr. Zeph Malhotra, who threw the line for the street railway, have been working on a survey for the new water line from the Bow river to town for the past week. The cost per mile would be about \$100,000.

In discussing the water situation with the Council at a special meeting Wednesday night, Mayor Whiting announced that the estimation had been given that the 300 houses per year in the town would be about 100 by June 1st as the date. It would require about a 25 horse power engine to do the pumping necessary for Bassano.

The C. P. R. had agreed to enter into a contract to purchase water at the rate of \$1.00 per 1000 gallons from the Bow river back for the water up and into the gravity pipe, which has a decided drop between the river and the town. With the pump it would be possible at all times to boost the pressure, and with its installation, it should reduce the insurance rate in

SCORES OF BUILDINGS FOR COMING SPRING

Just a few of the innumerable blocks to be erected in Bassano.

A tremendous amount of building is projected for the spring in Bassano, the following list indicating as nothing building will be erected as soon as the weather permits.

Four business blocks are to be put up at the commanding corner of First street, east and Second Avenue. On the west side of the street, the Canadian Pacific buildings, while on the east side, the John Robison, the British Investor, and the two houses of Peter Stiles will put up blocks. The Canadian Pacific buildings will be the tallest, so that the Mount Royal Police Barracks will be moved to a more remote spot. Stiles' Drug store is to be vacated to make way for the wholesale house of Mr. Zeph Malhotra, who is putting up a new store on the half lot just down to Mr. Stiles' garage on Third Avenue, Lot 8.

Councillor Flanagan is making arrangements for a fifty feet extension to his home.

A. J. Robison is putting up a fine residence on the corner of Second and Fourth street.

The Northwestern Hotel and Post Office will be on the corner of Second and Fourth street, and in addition put up eight bungalows for their employees.

The Royal Cafe on Second Avenue will be located with a modern addition to the building.

John G. Goss, a young contractor of Calgary, is putting up a warehouse on track property.

George Clancy & Gladys are putting up a residence.

Calgary Brewing Company have already commenced excavations for a new building on the corner of First and Opera House to seat 800 people on Third street east by May 1st. S. E. Whiting is to be located with a modern addition to the building.

Irrigation buildings in Block 15 A by the C. P. R.

100 freight shed extension by the C. P. R.

Photographic studio for B. T. Grey of Calgary, at the corner of 3rd street east and Third Avenue.

W. W. Robinson, hardwareman.

There is no doubt but what a very large percentage of the farmers in the West will make certain losses on account of the heavy snows, and the fact that they have not been able to move their teams to the river to turn the grain and handle it in order to keep it from freezing. The winter weather is grain that is not marketed before the warm weather will be in great danger of being ruined.

Three lots at the corner of 2nd and 3rd street east by Mr. G. W. Stiles.

COULD NOT WALK FROM RHEUMATISM GIN PILLS STOPPED THE PAIN

Dr. VERNON H. MURRAY,
"Just a word of praise for GIN PILLS. About fifteen months ago, I could not walk from rheumatism, I was walking with rheumatism. I took GIN PILLS and became quite well. Two years ago I had a relapse. Pains with Neuralgia and Diarrhoea, reported to GIN PILLS again for one week and was well again."

SAMUEL LONGMORE,
"It is remarkable how GIN PILLS, even with every box of GIN PILLS, work. The person or successful man in Wall street, of course, who have accumulated enormous wealth by buying, whether it be a piece of land, or investors rich, but how many of these instances are there? Just a few, while thousands have lost everything in unsuccessful ventures."

The person or successful man is the man who buys with a clear conscience, and not buying, whether it be a piece of land, a dozen of eggs, a horse, a house, or a dozen of shares.

Money has been made in Wall street and will continue to be made. Those who have lost their money can sell it and sell them when they advance must make money. The operation is as difficult as buying, but you have your heart half as tender as your head."

AN OPEN LETTER
FROM A WELL KNOWN CLERGYMAN
MAN SHOWING HOW INDIGENCE
TICKET CAN BE CURED

Rev. T. A. Drury, Beaconsfield, Ontario, writes as follows:— "For eight years I have been a member of the church impressed with the wonderful effects for good wrought by Dr. William Pink Pills. I have seen many cases of indigence, and a moderate profit on any advance the stock may enjoy."

Mrs. J. L. Story, who has just returned from a period of reminiscence, tells of a woman who had been a widow and been afraid of damp sheets. When she was drying Mrs. Story entered the room and found the woman sitting with a large assortment of bed-linen. She was having a "wind-blown" wash.

"I never have lain in damp bed-sheets while I was alive," said the old woman, "and I feel now that I am not going to do it when I'm dead."

An employer of men was inquiring of another employer if he could be recommended him two steady, sober men. "I have two sons," was the reply. "I know two men—the steadiest men you could find." The employer asked, "What did you do with them?" "I watched them for one solid hour, when they were with me, and then, when they were gone, I sent them to the poor house."

Son—"What kind of a man is a drone, pap?" Father—"One who stands in a revolving door and who is always ready to let it around so he can get in, my son."

5100 Reward, \$100.
The reward of this newspaper to the person who is at least one criminal who steals Bassano's GIN PILLS, will be given to the person who is the first to bring the criminal to justice.

NEW BRUNSWICK HEARD FROM AGAIN

ANOTHER SPLENDID CURE BY
DOODD'S KIDNEY PILLS

Mr. Ben Goring had Backache so bad he had to quit work—Oudee Kidney Pills gave him up.

Pussering Settlement, Kent Co., N. B. (Special)—Every corner of New Brunswick has heard of the remarkable Dood's Kidney Pills, and this settlement can contribute its share. Mr. Dood's son, Mr. Goring, has no hesitation states that he owes his health in the great Canadian Kingdom to Dood's Kidney Pills.

"Yes, Dood's Kidney Pills certainly did me good." Mr. Goring says and I am interested to know that he had to give up work, and that he had to care for his wife, and a good deal more. I took nine boxes, all told, and had a complete cure. The pills consist of brief excerpts from the book.

The rural school has not the influence that it should have. One of the chief reasons lies in the fact that the rural school is not in touch with rural life in all its relations. We are asked to teach the pupils that they should be good pupils for life and do their work while these pupils are living and working. The course of study in the rural school is not entirely too much like the course that is taught in the city school. The rural school will not reach the position of efficiency that belongs to it until more training is required of its teachers.

"A standard rural school should produce men and women who will go out into the rural communities, there to be potent factors in bringing about the welfare of the people. They are entitled to a course of study and to a course of instruction that will dignify him and make him a better man for him in the rural environment, should he choose to remain there not simply for a time, but for life, and to do right and right, and indeed a duty, to dignify rural life, and to bring about a better use of the best blood of the country.

"To prepare teachers who can meet the needs of the rural school, a study and training is proposed: The first year is largely given to district work, the second year to the study of two succeeding years turn more to work general scholarship, in order that the teacher may be able to teach rural schools but to enter larger fields of work.

"What on earth are you doing man?" shouted Sir Herbert, rushing back into the room. "It's not like thunder, it's not a bit like it!"

"Awfully sorry sir," responded the man, "but I'm afraid I couldn't hear you because of the storm. That was real thunder sir."

Miss Clifton—Yes, she was furious about the way in which that paper received her.

Miss Avondale—Did it allude to her age?

Miss Clifton—Indeed. It was stated that Miss Oldie and Mr. Yale were married, the latter being a well-known author.

You will see, perhaps feel chaff. You think you are catching cold. Don't wait until you know it. Take a dose of Dood's Kidney Oil and you just can't catch cold.

Miss Prue—Where did you get the design of your servant's liver? Sash—O, my ancestors used to have such smocks!

Shiloh's Cure
guaranteed to cure colds, croup, asthma, the throat and lungs. 25 cents.

When the people talk of "the good things" they mean enough to go to the best. They are using a deceptive phrase. The wise man is said to be the one who reaches the highest and best things. Only ignorance does that.

Miner's Liniment cures croup in cows.

"Are you honest with yourself?"

"I think so, but I'm not sure. Do you give up your time to a street car to a strange woman as quickly as you do to one whom you know?"

Admitting that he didn't, Old Man Osgood went plodding his way.

Different Schools

De Smeupart—I've been dead

since this eye on the right side of

face. O'Ullustra—I've got a black eye in less time than that.

**It is Criminal
to Neglect the
Skin and Hair**

THINK of the suffering
Tantalized by neglected skin
troubles—mental because
of disfigurement, physical be-
cause of pain. Think of the
pleasure of a clear skin, soft,
white hands, and good hair.
These blessings, so essential
to happiness and even success in
life, are often only a
matter of a little thoughtful
care in the selection of effective
remedial agents. Cuti-
cure Soap and Cuti-
cure Ointment do so much for poor
complexions, red, rough
hands, and dry, thin and
falling hair, and cost so
little, that it is almost criminal
not to use them.

Although Cuti-
cure Soap and Oint-
ment are sold by druggists and dealers
everywhere, a postal to "Cuti-
cure, Dept. B, Bassano, Alberta" will
bring a liberal sample of each with 25 cents
brought on Skin and Hair Troubles.

RURAL SCHOOL TEACHERS

A Course of Study for the Preparation of Teachers of Rural Schools

Detailed outlines of a normal course for the preparation of teachers in the study, elementary agriculture, sanitary science, and applied chemistry are contained in the material.

A course of study for the Preparation of Nurses and Teachers which the State Board of Education has just published for free distribution.

W. H. W. Co. Ltd.

The rural school has not the influence that it should have. One of the chief reasons lies in the fact that the rural school is not in touch with rural life in all its relations. We are asked to teach the pupils that they should be good pupils for life and do their work while these pupils are living and working. The course of study in the rural school is not entirely too much like the course that is taught in the city school. The rural school will not reach the position of efficiency that belongs to it until more training is required of its teachers.

"A standard rural school should produce men and women who will go out into the rural communities, there to be potent factors in bringing about the welfare of the people. They are entitled to a course of study and to a course of instruction that will dignify him and make him a better man for him in the rural environment, should he choose to remain there not simply for a time, but for life, and to do right and right, and indeed a duty, to dignify rural life, and to bring about a better use of the best blood of the country.

"To prepare teachers who can meet the needs of the rural school, a study and training is proposed: The first year is largely given to district work, the second year to the study of two succeeding years turn more to work general scholarship, in order that the teacher may be able to teach rural schools but to enter larger fields of work.

After indicating the cultural branch which should be possessed by the teacher, the following subjects are necessary for the proper training of rural school teachers:

"A practical knowledge of agricultural, sanitary science and hygiene, domestic economy, and applied chemistry.

"Elementary agriculture, elementary chemistry and physics are applied in the study of the rural school. The rural teacher should have a good knowledge of most country boys and girls ends with the rural school course. A knowledge of the rural school course, including subjects is certainly a minimum requirement of the teacher who trains for the rural school.

"The outline of the specific course of study is given in detail, accompanied with detailed outlines of the ground to be covered, and the manner in which it should be taught.

"A course of study for the Preparation of Teachers of Rural Schools" will be sent upon request to the United States Bureau of Education, Washington, D. C.

BABY OWN TABLETS

Mothers who have once used Baby's Own Tablets for their little ones will always keep them in the house. They realize the value of the Tablets in helping to keep the child's bowels regular, in curing colic, in removing colds, cures, or better still, in warding off disease by giving the child a tablet or two of Tablets to keep his stomach and bowels regular. Concerning Baby's Own Tablets, the American Medical Association, writing, "I have used Baby's Own Tablets and would not now be without them. I have found no better medicine I know for little ones." The Tablets are sold at 25 cents a box, and are sent to all from Dr. William Medicine Co., Brockville, Ont.

"George,"

"Yes, dear?"

"I've married you once

"I enjoyed it a brass band."

"Yes, perhaps I did, but it seems I misunderstood you, George. My wedding ring is making a black mark on my finger."

Baby's Own Potent

—Farmers' Vegetable Pills, compound of only vegetable substances, are effective in action. Their fine qualities as a corrector of stomach trouble are in constant demand everywhere by those who know a simple and effective remedy. They are a great introduction to those acquainted with them, but to those who may not know of them, we would like to call your attention to the following: Tablets to keep his stomach and bowels regular.

—Farmers' Vegetable Pills, compound of only vegetable substances, are effective in action. Their fine qualities as a corrector of stomach trouble are in constant demand everywhere by those who know a simple and effective remedy. They are a great introduction to those acquainted with them, but to those who may not know of them, we would like to call your attention to the following:

"Concerning Baby's Own Tablets, the American Medical Association, writing, "I have used Baby's Own Tablets and would not now be without them. I have found no better medicine I know for little ones." The Tablets are sold at 25 cents a box, and are sent to all from Dr. William Medicine Co., Brockville, Ont.

"George,"

"Yes, dear?"

"I've married you once

"I enjoyed it a brass band."

"Yes, perhaps I did, but it seems I misunderstood you, George. My wedding ring is making a black mark on my finger."

A GOLD MINE

Professor Shaw, the greatest agricultural economist the world over, who visited the Bow Valley lands said: "There is greater wealth in the upper 12 inches of soil in Alberta than in the gold mines in America."

THE PROFESSOR WAS RIGHT

The soil of Alberta is amongst the richest in America, containing all the valuable constituents that nature has stored up during past centuries. And it only awaits the turn of the plow to yield up its treasures.
